

SERVICE BRIEF

Business Conference and Meeting Solutions

You need to be able to conduct meetings while team members are out of the office.

Keeping Your Resources Connected

In order to keep their teams connected, many companies are learning to lean heavily on various conferencing solutions.

In today's marketplace, mobility is essential. Instituting a streamlined conferencing solution can keep you and your staff on the same page which helps maintain team continuity. Edit Technology Solutions is your one-stop-shop for all your information technology needs. We can get you set up with the conferencing options that best meet your company's needs. The conferencing capabilities offered by Edit Technology Solutions, is just another way that we are able to deliver solutions that increase productivity, fuel efficiency, and save your organization money.

Mondopad

Enhance your presentations with the ultimate business collaboration tool.

Have you ever been in those meetings where everyone is huddled around that small laptop, or desktop computer monitor, attempting to take in a presentation? If you have issues with your presentations, you may want to integrating your office with the best conferencing tool on the market, the Mondopad. The Mondopad is an all-in-one presentation and company collaboration tool that turns your conference room into mission

control for dynamic company's meetings.

The Mondopad comes equipped with the following features:

- A large 55-inch, touch-screen display
- An integrated Windows 10 OS
- Microsoft Office Productivity Suite
- High-definition 720p camera with four integrated microphones
- Digital whiteboard capabilities
- 2.4 GHz wireless access point

Since authorized users can use any mobile device to follow along in the meeting from anywhere, people on the go won't miss a beat. Edit Technology Solutions offers the Mondopad, as well as other dynamic conferencing solutions.

Web Meetings

The extremely simple and extraordinary powerful online meeting interface.

The conferencing solutions we use is one of the simplest online meeting tools on the market. With these conferencing solutions, you can experience first-hand the benefits of mobility and how it can work for your business. In this virtual meeting room, you can expand your company's reach, meet with clients, and improve workplace synergy.

Be able to host video conferences, share screens, and change the presenter with the click of a button. The software allows for unparalleled collaboration capabilities, with the impeccable support that Edit Technology Solutions is known for in the Southern California area. Our solution can be used on any Windows, iOS, or Android device, making remote sessions a breeze. Edit Technology Solutions has access to deliver all the conferencing and communication solutions that your company needs to keep your team, and clients, in the loop.

Business In A Shrinking World

Technology has made the world a much smaller place, as communications can take place much faster over farther distances than ever before. This allows businesses to be more productive and expeditious in their projects, embracing more opportunities and enjoying greater benefits.

With the right technology, communication and collaboration can seem effortless. Edit Technology Solutions is here to assist you as you leverage these technologies for the benefit of your business, connecting your resources regardless of the distance between them.

Benefits

- Streamlined communications.
- Simplified conferencing capabilities that shrink the distance between you and your collaborators.
- Tools to allow collaboration among larger groups.
- Host conferences with advanced capabilities with full support from Edit Technology Solutions
- Compatibility with multiple operating systems.
